(d) Terms and conditions of transactions with related parties

The transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year end are unsecured and settlement occurs in cash. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

Note No. 37 Financial risk management objectives and policies

The Company's principal financial liabilities comprises of borrowings, trade payables, lease liabilities, other financial liabilities and financial assets includes investments, trade receivables, cash and cash equivalents that derive directly from its operations. The Company's financial risk management is an integral part of business plan and execution of business strategies. The Company is exposed to market risk, credit risk and liquidity risk. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below

A. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of foreign currency risk and interest rate risk. Financial instruments affected by market risk include lease, borrowings, and deposits.

B. Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than company's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates.

The carrying amounts of the Company's net foreign currency exposure denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

Particulars	As at 30 June 2024		
	USD	GBP	Euro
Trade payables	1.93	0.08	-
Trade receivables*	42.71	0.14	13.20
Net exposure (Foreign exchange)	44.64	0.22	13.20
Net exposure (INR)	3,721.82	43.95	1,199.99

Particulars	As at 31 March 2024		
	USD	GBP	Euro
Trade payables	(0.25)	-	-
Trade receivables*	57.24	0.25	4.45
Net exposure (Foreign exchange)	56.99	0.25	4.45
Net exposure (INR)	4,751.26	26.32	484.14

Sensitivity analysis

A strengthening of the Indian Rupee, as indicated below, against USD, GBP and Euro would have increased (decreased) profit or loss (before tax) by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the company considered to be reasonably possible at the end of the reporting year. The analysis assumes that all other variables, in particular interest rates, remain constant.

Particulars	As at 30 June 2024		As at 31 March 2024	
	Strengthening	Weakening	Strengthening	Weakening
5% movement				
INR/USD	186.09	(186.09)	237.56	(237.56)
INR/GBP	2.20	(2.20)	1.32	(1.32)

Total	247.83	(247.83)	259.09	(259.09)

ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's borrowings with floating interest rates.

The exposure of the Company's borrowings to interest rate changes at the end of the reporting period are as follows:

Particulars	As at 30 June 2024	As at 31 March 2024
Variable rate borrowings	-	-
Fixed rate borrowings	-	4,365.31
Total	-	4,365.31

**B. Credit risk**

Credit risk arises from the possibility that the counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company is exposed to credit risk from its operating activities (primarily trade receivables). The carrying amount of all financial assets represents the maximum credit exposure.

**(i) Trade receivables**

The Company periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and aging of accounts receivable. The Company considers the probability of default upon initial recognition of assets and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. The Company does not hold collateral as security. The Company has not experienced any significant impairment losses in respect of trade receivables in the past years.

Financial assets to which less allowance is measured using lifetime /12 months Expected Credit Loss (ECL) as on 30 June 2024

Particulars	Gross Carrying Amount	Expected credit loss provision	Carrying amount net of provision
As at 31 March 2024	5,204.35	1.20	5,203.15

**(ii) Cash and bank balances**

The Company held cash and bank balances of Rs. 1383.14 lakhs. These cash and bank balances are held with high rated banks/institutions and therefore does not carry any significant credit risk.

**(iii) Others**

Other than receivables reported above, the Company has no other material financial assets which carries any significant credit risk.

**C. Liquidity risk**

Liquidity risk is defined as the risk that Company will not be able to settle or meet its obligation on time or at a reasonable price. The Company's objective is to all time maintain optimum level of equity to meet its cash and liquidity requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. In addition, processes and policies related to such risk are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecast on the basis of expected cash flows.

The Company considers that the carrying amounts of amortised cost of financial assets and financial liabilities recognised in the financial statements are approximate to their fair values.

(ii) Fair value hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Measurement of fair values

The different levels of fair value have been defined below:

**Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and traded bonds that have quoted price.

**Level 2:** The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. The fair value of financial assets and liabilities included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes of similar instruments.

Fair value of the Company's financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required)

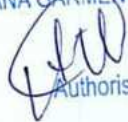

The management considers that the carrying amounts of financial assets and financial liabilities recognised in the financial statements approximate their fair values.
